THE BANQUET .- Owing to the lateness of the hour at which the report of the Banquet at the Yarboro on Thursday was made up, our reporter was unable to include all the pleasant things that transpired or all the happy speeches that were made. We regret that the effective remarks of Judge Read and Judge Settle, among others, should have failed to receive the notice we learn they so richly deserved, but with regard to them as well as to others, the omission was unintentional or unavoid-

able. WAKE COUNTY FARMING ITEMS .-The farms in the neighborhood of Leesville, some ten miles northwest of Raleigh, are almost without precedent in the abundant yield promised. The wheat, oats and corn crops are good, the cotton is large and full of squares, and no sign of insect has been discovered. Mr. H. E. Holloway, with home-made manure and small quantity of "Yankee bonedust," will in all probability make two bags to the acre. The wheat crop has suffered to some extent from the mould or rot recently from the recent heavy and frequent rains.

H C Smith, Captain and Leader, T W Sadler, Secretary and Treasurer. A resolution was adopted requiring the band to be punctual up at the regular semi-weekly meeting. Henry Faucett was elected drum

Major of the band. After the transaction of other important business the meeting adjourned.

We are pleased to learn that the band is now better organized than ever before, and having received several valuable new members, will improve rapidly, and ere long be what it should be, the best band in the State. It has good material, and we do not doubt of its success.

The Company will indulge in target practice and the best shot line will be rewarded with a beautiful plume to be worn until the next anniversary. At night the company will give a grand military ball, Stanley's band having been employed for the occasion. We notice as general managers of the ball Lieut. P. F. Pescud, J. R. Ferrall, L. G. Bagley, Sergeants J. T. Pullen, F. Heartt, R. I. Williams, W. M. Busbee, Corporal G. B. En-

DIXON'S GRAPHITE PENCILS.-We are using for the first time a pencil which we find superior to any American pencil we have used, and not inferior to the far famed Faber. It is manufactured by the Jas. Dixon Crucible Co. in Jersey City, N, J. All qualities are manufactured, from the finest grades of drawing pencils to those used for mechanical purposes. A perfect pencil should be smooth, soft, black, uniform and reliable, hold its point in wear and be pleasant to use. This is what we find in the Dixon Graphite pencils, and they are beautifully put up, making them an attractive article for the dealer in stationery. We hope to see our stationers get into their use, and the price list will grove a strong inducement to their pur-

MORE OF THE SCOTT PARTIN WIFE MURDER!

The Place of the Murderer Discovered-More of the Remains Found-The Fiend Chopped His Wife and Child to Pieces on a Log and Then Attempts to Burn Them, Being Several Days Engaged in the Effort.

THE MURDERER PROBABLY ARRESTED IN HALIFAX COUNTY.

Our readers are already acquainted with the horrible details of the murder in February of the wife and child of Sectt Partin in this county, at the hands of the inhuman husband and father, but the following additional facts which have just come to light make the committal of the terrible deed even more heinous that it at first appeared.

On Wednesday, another general earch was made to find the remaining portions of the unfortunate woman and child, which could not be found in the hole in which portions of the body was at first discovered, which search resulted in the discoving of the place at which the brutal act was committed. In a heavy thicket some quarter of a mile from the residence of A. W. Partin, and about the same distance from the spot at which the first discovery was made, was found what was evidently the scene of the murderer. Near a log, which bore traces of having been cut by an axe, as if something had been chopped upon it, was found the remnants of a fire, and in the ashes and near the same was found the bones of a human foot and those of a hand, some of the teeth of a human being, the skull of an infant and portions of the unfortunate woman, together with the buttons of a dress, leaving no doubt of the fact that the murderer had first chopped his wife and child up and then endeavored to destroy the pieces by burning them, but finding the process too slow or hazardous, had resorted to the plan of burying them in the manuer in which they were discovered last

His mother now states that Scott days subsequent to his leaving her house with his wife he came to the house and borrowed a guano bag and obtained his yarn coat, and that she saw him pass several times across the field between the place where the last and first discoveries of the body were made.

The feeling in the community where this foul outrage was committed, is still intense, and the life of Scott Partin would be far from safe in the hands of those people.

THE MURDERER PROBABLY ARREST-ED.

dispatch was received by the Governor yesterday to the effect that a man answering the description of Scott Partin (the same to which we alluded vesterday morning as having been seen at Palmyra, Halifax county,) had been arrested between Palmyra and Tarboro, and was held awaiting identification. Policeman Crosson left this city for that locality Thursday night, and as he is personally acquainted with Partin, if the man arrested be the right one, he is doubtless at present in the clutches of the law. If he be arrested let not justice be slow in giving him that death which his damnable deed so richly merits.

Thirty five years of age, he has never tasted liquor, wine, cider or beer, has never taken a chew of tobacco or smoked a cigar, does not know a card, has never seen a game of billiards, and is now chief ruler of the Independent Order of Rechabites of Wilmington. Lindley Spring vs. Patrick Murray from Wake. Moore & Gatling and Smith & Strong for plaintiff and Fowle, W. S. Mason and Merrimon, Fuller & Ashe for defendant.

AN IMPORTANT CORRESPONDENCE ONDERNING THE NATIONAL BANKS,-The following correspondence concerning the right of the State to tax the National Banks will be found of interest :

CITIZENS' NATIONAL BANK,)

Raleigh, N. C., July 3d, 1875. }
Hon, W. H. Howerton,
Secretary of State, Raleigh, N. C.
DEAR SIR:—I have your favor of 1st inst. demanding a report of the condition of this Bank. In reply I have to say that acting under advice of Conusel, I shall make no statement to your department. I trust you will not construe the refusal as any want of courtesy to your department, or any inclination to resist a lawful demand made by State authority, orany desire to avoid the publication of the state of the Bank (under act of Congress National Bank are obliged to publish their conditions at least five

times yearly.

The refusal is based on the ground that the act of Assembly conflicts with the National Banking Law, and a compliance with the act may possibly be hereafter used as a precedent for further legislation.

I am, very respectfully

Your obedient servant, P. A. WILEY, Cashier. P. S. Allow me to refer you to the National Bank Act, June 3rd 1864 Section 54, and particularly to that clause in the second section which reads as follows: "And the Associition (National Bank) shall not be subject to any other visitorial powers than such as are authorized by the act, except such as are vested in the

several Courts of law and chancery— Yours, P. A. Willey, Cashier. The Secretary of State submitting the matter to the Attorney General. The following is that official's an-

swer: ATTORNEY GENERAL'S OFFICE,)

RALEIGH, N. C., July 6, 1875.) Hon. Wm. H. Howerton Secretary Dear Sir :- Your communication of the 5th inst. enclosing a letter from 'Col. P. A. Wiley cashier of the Citizens National Bank of this city, refusing to send in the statement required to be made by law,' &c., and requesting me to "advise" you, "what to do in the matter," has been received. The Act of the General Assembly under which you require from every corporation "which grants annuities or holds property trust or receives money on depos it," &c., a "report of its financial and business condition," in my opinion includes National Banks if they receive money on deposit, &c. In case any corporation refuses to comply with the law, your duty in the premises is clearly prescribed in chap. 205 latter part of sec. 3 of laws of 1874 & 75. to which I respectfully refer

you in reply to your interrogatory. Very respectfully, T. L. HARGROVE,

Att'y General.

THE NOMINEES IN GRANVILLE .-Partin remained in the neighborhood | The Democratic Convention to noseveral days after the disappearance | minate Candidates to represent Granof his wife and child; that some four | ville county in the Constitutional Convention, assembled at Oxford on Tuesday, the 13th inst:

It was presided over by that sterling old farmer, John W. Stovall, Esq. The meeting was largely atten and during the absence of the Committee was ably addressed by Samuel J. Skinner, Esq., and James T. Little-john. The Committee on returning reported John W. Hays, Esq., and Baldy Capehart as its nomineer are gratified to state that neither of these gentlemen did any thing to seek the pomination, but the honor was thrust upon them by the sponaneous will of the Convention. Mr. Hays is a model lawyer of mark-

ed ability and worthy, who has the of every shade of political bias. Should he be elected he is destined to be a ruling spirit in the Convention as he is one of the leading lawyers at one of the most intelligent bars in the State. Mr. Capehart, the other nominee, is a farmer of genial manners and great personal popularity by reason of his whole souled nature and high-toned

't be nominees are both of the right stripe, and Col. Ike Young and C. M. Rogers, the radical stand-bearers will find they have their hands full to keep their lines unbroken with such formidable opponents to assail their stronghold.

Messrs. Hays and Capebart are neither office-holders nor panderers to party prejudices to attain prefernt. We congratulate our Granville friends on their judicious selections.

FINE STOCK AND THE CROPS OF ORANGE.-A correspondent writing us from Orange county says:

On the farm of Dr. J. F. Cain, eight miles east of Hillsboro, I saw some of the finest stock I have ever seenin North Carolina or elsewhere. It consisted of ten Southdown and ten Cotswold sheep, a thoroughbred Durham yearling bull, and an im-roved Berkshire sow. The sheep are, in my opinion superior to any I have ever seen in the State. In the fold there is a Southdown Ram about two years old, that weighs 300 lbs or more, and a Cotswold Ram three and a half (31) months old, that weighs at least 100 lbs-and all this on

The Bull is a very fine animal and so is the Sow. The Stock belongs to Dr. Cain and Chas. L. Dennison, and was brought from Canada the past Winter—except the lambs, of course—and will be on exhibition at the next State gentlemen deserve great

praise for this enterprise, and it is hoped that others may follow their example, for fine stock and grass will do more to redeem North Carolina, than cotton and tobacco. The crops in Orange are very good The late heavy rains here greatly injured the wheat that was left in the ds. Corn and tobacco look welland the black-berry crop is very abundant and the fruit very fine. There are some apples but no peaches or pears. The people of Orange need

good roads more than they do any-

THE 27TH CONGRESS .- In the session of the Senate from 1843 to 1845 the Hon. W. A. Graham, of N. C., Hon, Willian Allen of Ohio, and Hon. Chas. M. Conrad of Louisanna were the youngest members of the body. They are now the only sur-vivors!

Scott, of Chatham, was made Chairman. W. W. Vass and J. B. Martin were made Secretaries. The Committee on Stock on Proxies, consisting of A. M. McPheeters and W. W. Vass, reported as present in person, and by proxy 11,-235 shares, a large majority of all the

stock being represented. The report of the President, Superintendent, Treasurer and Auditor were received and accepted, by the

Stockholders. On motion of A M McPheeters, the meeting proceeded to ballot for the election of seven directors and the following named gentlemen were elected : Dr. W J Hawkins, Maj. Geo. W Grice, P C Cameron, Col. Geo. Little, Col. Walter Clark, W W Chamberlain, Joseph B. Batchelor. On motion the meeting then ad-

journed. Immediately after the adjournment of the Stockholders the Board of Directors met, when Dr. W. J. Hawkins was re-elected President; Capt. A. B. Andrews, Superintendent, and

W. W. Vass, Treasurer. From the President's Report read to the Stockholders' meeting, it appears that 57 miles of track is laid and in good running order i. e. from Raieigh to Cameron and that it is forty miles from Cameron to Junction with the Carolina Central of which fifteen miles are now being graded. The road will probably be completed next Spring.

A CENTENNIAL INTERVIEW .- Our nterview with the hundred-andfifteen-year old negro woman domi ciled in this city was short and unsatisfactory. Fixing our "piercing gaze" upon the old creature that she might understand that he wanted no foolishness, we asked her age—"115.' Did she ever see George Washing "Yes; she saw him im Albe marle when he met Napoleon Bonaparate." Could she recall any event hat transpired about the outbre the Revolution? "La, honey, I had children who recollect dat. dauughter Cinda's fust child was born de vers day when Gen. Washington about three minutes obtained all the information we sought, we left, fully persuaded that the old creature would, had we insisted upon it, given her age at 175 years.-Paducah

Says the Hartford (Ky.) Herald: A Calhoun man, who doesen't be ong to the temperance society. found a twenty-four foot snake coil ed around his wife's neck the other night, as he was about to get into bed. Springing back he seized a chair and tried to knock the serpent off. For the space of half an hour the neighbors thought they were manufacturing earthquakes in that house. He is confied to his bed, and regales sympathising visitors with the particulars of an imaginary wrestle with a mule's heels, while his wife dances about the house with a strip of court-plaster on her chin, a a springy step, sparkling eyes, every once in a while a motion of her elbows as though she were about to flop her wings and crow the cock adoodle-doo of victory.

The States that vote next are these: In August North Carolina and Ala bama vote for delegates to a Constiutional Convention; Kentucky holds the regular State election. In September California and Maine have State elections; those are lowed by Ohio and Iowa on the 12th of October. THE FOLLY OF NEGLECT.—It is the height

of folly to neglect precautionary measure for the preservation of health, when the become necessary in consequence of burt all influences. Among these influence tre the unavoidable inhalation of malari ful influences. Among these influences are the unavoidable inhalation of malarious or fetid air, exposure in bad weather, unhealthy occupations and habitual late hours, all of which tend to produce disease. To guard against their effects a vigorous and regular discharge of the bodily functions should be kept up. Hostetter's Stomach Bitters is the tonic, of all others, best calculated to perpetuate bodily vigor and regularity. The experience of denizens of unhe lithy localities, out-door laborers, employees in manufactories, and late workers of all kinds, has shown that a wineglassful of this piessant safeguard taworkers of all kinds, has shown that a wineglassful of this piesant safeguard taken at regular intervals imparts an amount of stamina and power of resistance to disease afforded by no other protective and remidal agent. The nervous, the weak and the dyspeptic, derive incaiculable beatift from its use, and pronounce it the test preparation of its class. PRICE: FIVE CENTS.

TO BUSINESS MEN. A good advertisement in a widely circu-ated newspaper is the best of all possible salesmen. It is a salesman who never sleeps and is never weary; who goes after business early and late; who accosts the merchant in his store, the scholar in his study, the lawver in his office, the lady in her home, the traveler in the car or boat; a salesman who no purchaser can avoid.
who can be in a thousand places at once and speak to thousands of people daily,
saying to each one the best thing in the best manner. A good advertisement insures a business connection on the most permanent and independent basis, and is in a certain sense, a guarantee to the customer of fair and moderate prices. Experience has shown that the dealer, whose wares have obtained a public celebrity, is not only enabled to sell at reasonable ra.es, and to furnish a good article. A dealer can make no better investment than in the advertising columns of a widely circulated newspaper. Such is

the opinion of a man who is known to be the largest advertiser in the United States. That is THE DAILY NEWS. NEW ADVERTISEMENTS. 1 will pay the above reward for the capture of the thief and return to me of \$1,400 stolen from my room over Dodd's store, on Thursday norning. THE Convention is called to benfit North Carolinians. It is their duty to send their best men to represent them.

WHEREVER there is a revenue offi cer in the State, he will be found in the field hard at work against the Convention. All this is more than suspicious. It tells the purpose of the Radical party to break down the people by the aid of the General Government. All the influence of office, money and promises are brought to bear to corrupt the people and cut them out of their birthright.

Let the people be warned in

WILL the Democrats not take warning from the example of the other party? They are working night and day with money, with speakers, with secret circulars.

What are our speakers about? Do they not see the necessity of work, of waking up the people, of counteracting the efforts of the opposition? Let every man go to work with a will. Let the young men who can speak go out among the people and show them what the Radicals are working for. Surely there is enough virtue left among the people, enough of interest in the general welfare, enough of remembrance of past trouble, enough appreciation of the ills of the present Constitution to prevent its being fastened upon us forever.

THE Washington Chronicle remarking upon Mr. Busbee's speech before the Cotton Congress, rather rebukes him for the association of the names of McPherson and Jackson as names to be reverced.

Warren fell in an attempt to disrupt the Government, and if the revolution had been a failure, history would have written him down also as a rebel worthy of the stigma the Chronicle attaches to Jackson. But as the Chronicle admits that Jackson was a "brave commander, a splepdid soldier, and a christian gentleman," it is hard to convince the impartial world that such a man is not a proper exemplar to the youth of the land of heroic patriotism and sacred devotion to duty, even though the cause in which he died is a lost one.

THE Radical address charges that the Democratic party, in calling a Convention, tramples upon the principle that sovereignty is vested in the people.

What is more absurd than this assertion, since the recognition of this principle is shown by the fact that in the call of a Convention the whole fundamental law is referred back to the people themselves, and the people have the revision of the whole matter afterwards, lest they might have reason to distrust the wisdom or fidelity of their Agents, the Delegates in Convention. What stronge recognition of the principle of the sovereignty of the people?

BART FULLER, Esq., in a communication to the Fayetteville Gazette, gives Judge Buxton good reason to regret that he ever committed himself to the expression, "that his position prevented him from dabbling in the politics of the day. and that "he had strictly observed the proprieties of his position." Mr. Fuller presents a series of contrasts which show, that with whatever confidence the Judge may ask the support of the Radical party, he has absolutely forfeited that of the

Conservatives We quote contrast number 4 .-They all embody the same principle -that of partisan leaning in cases where absolute impartiality is demanded.

We give No. 4, in full :

"Anthony McDongald, a colored man, was indicated and tried at Jannary Term 1874 for an assault with the projecter to realize the antici- consolate.

a deadly weapon upon E. P. Powers, the town Marshall. He was convicted of an assalt with intent to kill ; judgment of the Court : that Anthony McDougald be fined five cents and cost! (note: This same Anthony drove your carriage last summer with negro voters in it, to the polls when you sat all day to watch the results of the voting :)

John Black, a white man, was convicted of an assault on a negro, the same night on which an assault on Mr. Powers was made; You fined him fire dollars and costs."

To Judge Buxton has been ascribed a character of fairness and impartiality which has been denied to most of the Radical Judges. Russel and Logan, Watts and Tourgee, during the first three years of his term, made their seats infamous. If Judge Buxton is tainted, too, where shall the people look for purity in that

HERE AND THERE.

We clip the following from the Cincinnati Enquirer. With all the professed love for the negro, the northern stomach is squeamish on the subject of miscegennation, and the laws interpose to prevent it :

" Frank Miller, a German, indieted for marrying Mary Sims, a negress, and Rev. Jesse Bass, colored, indict-ed for performing the ceremony, were arrested in Albany, Indiana, Saturday night and committed to jail. Yesterday the parties were taken before the Criminal Court and the case continued until next term."

Now see what the Convention of 1868, which put the present Constitution in force, did.

That Convention to the disgust of all decent people declared the marriage of A. G. Thornton, white, to a negro woman, both residents of Fayetteville, by a solemn enactment to be ralid and binding.

The Radical conclave resolved, that an extended discussion of the Civil Rights bill is deemed unadvisable, but the Republicans should never admit that the bill is wrong in principle or that it will be disastrous in its operation, &c."

By no means. There is much use for the Civil Rights bill in the future if the Radical party have the opportunity to use it. During the session of the Supreme Court, two men were admitted to the bar, whose only qualification was that they were colored. Negro lawyers are watching their turn to go on the bench. The party has use for the negro vote, therefore it will not do " to admit that the Civil Rights bill is wrong in principle."

DR. W. J. HAWKINS.

The annual meeting of the R. & G. Railroad Company held in this city Thursday was attended with a result highly satisfactory to the friends of the road and specially gratifying to the gentleman more immediately interested-the unanimous re-election of Dr. Hawkins to the Presidency of the company.

On re-organization of the R. & G. R. R. in 1850, Dr. Hawkins was elected a Director and as Director or President, has been connected with the road ever since-a period of 23 years. In 1857 he was elected President, and since that time has held it by successive re-elections, with the exception of the period occupied by R. W. Lassiter, who was elected through the State's proxy appointed by the Provisional Government. During the whole of this long period Dr. Hawkins has devoted himself to work with an energy and sagacity which stamp him as one of the first railroad men in the country.

Upon the Raleigh and Gaston Road the fruits of his efforts were at once manifest. Order, system and economy were introduced and persistently followed up. The road has been thoroughly rebuilt, bridges of superior construction erected, new and handsome depots put up, and the building of all equipment of coaches and cars begun and suc-

cessfully accomplished. The receipts of the road had increased from \$164,000 in 1866 to \$359,000in 1873. In the last two years the panic and the lease of the North Carolina Road to the Richmond and Danville Company have had the

effect to diminish the receipts. The effect of the latter cause was anticipated, and here the sagacity of Dr. Hawkins and his eminent financial skill were conspicuously displayed. The Chatham Road, originally devised as an outlet to the coal fields, on Deep River, has been expanded into a great scheme of a rival interior line opening up another new region in North Carolina while offering another and a shorter avenue between the Southwest and Atlantic Coast. And the financial skill has been manifested in the success with which he has been enabled to provide means by which this great work has been steadily pushed forward, until it is now so near its completion, as will soon enable pations of a restored and more enduring prosperity to the Company of which he has been so long President.

The Company is to be congratulated upon its wisdom in retaining one whose services have been so distinguished, and whose life is now thoroughly identified with the corporation whose interests he has so long preserved.

THE activity of office holders in working for seats in Convention and the zeal of revenue officers to defeat Democratic candidates ought to open the eyes of the people to the true character of the contest.

It is office, money and power against the rights and liberties of the people. Be warned in time!

THE question is not whether we shall have a Convention or not; it is, who shall represent us? Remember

For the Daily News,

A Visit to Chapel Hill. Mr. Editor :- On yesterday I vis ited Chapel Hill, for the first time in The visit refreshed me and greatly enlivened my hopes. At Durham I found the old hotel on wheels, making room for a new building of commodious size and elegant style, suggesting ample accommodations to students and visitors at the point at which the most of them will probab ly leave the railroad. The country road from Durham to Chapel Hill is in very fair condition; quite as good as I ever knew it to be. The first men I saw in the historic little town were the busy carpenters at the Dr. Phillips residence. The Swain house across the street showed the marks of rehabilitation. The Kimberly (Dr. Wheat) House is undergoing repairs. The Mitchell house is occupied and does not appear to need a great deal of work. The Campus looks far better than I expected. The grand old lawn is still there, to my eyes as thickly shadowed as ever. It is certainly unsurpassed in beauty by any location I have ever seen. The University buildings do not appear to have changed as much as I supposed, as to the ex-terior. One of the East Buildings has been tho: oughly refitted and is now by far the neatest. most inviting edifice of the kind I have ever inspected. It is ready for students now. Much has already been done on the South Building and the New West, and they too will soon be comfortably renovated .-These three will accommodate a large number. A heavy force is pressing the repairs on the old hotel. Joy. gratitude, hope, confidence, resolve are seen and felt throughout the reviving community. Boarding houses are getting ready. The country around give signs of good fresh ma keting. Board will be cheap, prob-ably from \$12 to \$15 dollars per month. Intoxicating liquors are to be swept out of the place. There is good society in the village. There are no temptations to extravagance there. Everything and everybody give promise of being ready by September. Mr. Andrew Mickle, the Bursar of the University, is faithfully at work, supervising the preparations; and he will promptly and relably answer all board, &c. The news is encouraging in regard to students. There is to be a race as to who will be the first one o enter. More than one aims to be first. The prospect brightens-the ight is streaming over the Eastern

This aroused suspicion. and the Governor took the matter in hand. He examined the leaf of the book. It was only that of a common novel, twenty-six lines on a page. Then he studied the hair and the small quantity of the gift. Counting the hairs, he found them of unequal length and twenty-six in number the same as the lines of the page Struck with the coincidence, he laid the hairs along the line of the which they respectively reached beginning at the top with the smallest hair. After some trouble he found that the end of each hair pointed to a different letter, and these letters combined formed a slang sentence, which informed the prisoner that his friends were on the watch, and that the next time he left the prison to be examined an attempt would be made to rescue him. The Governor laid his plans accordingly attempt at rescue was made, but the rescuers fell into their own trap.

PLAYING MARBLES WITH A CROSS-EYED MAN.—He was bald-headed and in trouble. Remarked he, (and there was a baleful glitter in his dark blue eye): "Did you ever play marbles with a cross-eyed man? "We marvelled much at this strange story," winked at him and he followed us. As he was leaning over the counter, he capped the climax by telling how the same cross-eyed man one day picked an unsuspecting buzzard off the fence. The buzzard thought he was looking the other way.

A few days ago the proprietor of a market at Hartford, while serving customers, was astonished by the oud and sudden squealing of a rat in the rear of his premises. On examination he found that one of the animals, in attempting to pass over a pile of clams, had dropped his tail into the partly open mouth of one of the shell-fish, which closing, held the interloper fast.

LET THE PEOPLE READ. State Expenses .- Conservative vs.

Proper care and economy in handling the people's money is a great virtue in any political party. Extravagance, waste and peculation should crush it in the eyes of all good citizens. North Carolina is poor, and the party that practices economy in her administration seeks her greatest good. The following carefully prepared table shows who are the political friends of our Commonwealth:

16 262 318 2 222 x Z Total four years Conser-3 3 E.S. 118 265 For the year ending Sep-tember 1874. ESE. 18 888 For the year ending Sep-tember 1873. 8 382 543 37.3 2 2222 7 2555 For two venys Radical 8 8445 5 2325 34,543 57,884 146,880 74,742 For the year ending September 30th, 1870, tember 30th, 1869, Seesa inting noies.

It will be seen from the above estimates that the last four years when the administration of the State affairs has been to some extent controlled by conservatives, the public expenses have been less by \$35,775.81 than that spent by the radicals in two. a difference sufficient in itself to defray the entire cost of a Constitutional Convention, By an amendment already made to the Constitution the General Assembly meets only once in two years, (an amendment passed by Conservative effort) so that the expense of the last Legislature, \$109,168.80, should be divided by two to show a proper per annum expense.

Now let us estimate the probable ost of the Constitutional Conven-

Estimate the duration of the Con-

Printing, &c., Total cost of Convention. \$39,050,00 The voting population is about 200,000, so that the cost of Convention will be fifteen cents to the voter. The property however pays the tax. and estimating the taxable value of the property of the State at \$150,000,-

5,000,00

000 we find the cost of Convention but 20 cents on the thousand dollars. In alluding to the four years of Conservative rule we "say to some extent" because they have not had the entire control of the State. If so much is saved when only the Legislative branch is conservative what would be the result if all were in their hands? Much of this expense also could be saved were it not force ! on us by our ill advised Constitution hard to give figures a partys bias. ADDRESS OF THE EXECUTIVE DEMOCRATIC CENTRAL COM-MITTEE TO THE PEOPLE OF NORTH CAROLINA.

ROOMS OF THE DEMOCRATIC CON-) SERVATIVE CENT'L EX. COM., RALEIGH, June 1st. '75. to the People of North Caroling:

The General Assembly at its reent session called a Convention of he people to meet at Raleigh on the 6th day of September next, for the purpose of suggesting such alteraions in our organic law as may be deemed wise and expedient. NECESSITY FOR CHANGE.

The necessity for changing many of the provisions of the existing Constitution is generally admitted, and is too apparent to require extended argument. It is true that some of our prominent men at one time opposed he call for a convention; but their action was based on prudential consideration, and not on an indisposi-tion to have the Constitution thoroughly revised. They feared that our purpose in seeking to reform our Fundamental Law, might be mis-construed by the violent and ill-informed men then controlling Congress, and the prosperity of our peo-ple checked, and the peace of the State jeopardized by some barsh and unconstitutional action on the part of the United States authorities. That fear no longer exists. We now have every assurance that the have every assurance that the Constitution of the United States will be observed by the officers of the Government, and feel a satisfaction in announcing to you that the time has at last arrived when the officials at Washington City concede that the people of North Carolina have the same right to manage their local concerns which the citizens of other States enjoy. We can proceed without apprehension to perfect our Constitution and remodel it in the interests of our people.

THE CONSTITUTION, THE CREATURE OF MILITARY LAW.

This Constitution, the creature of

Military dictation, was born in the throes of a Military reconstruc-tion. Its authors were mainly Sciolists and adventurers, who had ived among us without preferment, or possessed of qualifictions entitling them to it; others were our recent slaves, who had known no law save the will of their masters, and others still were carpet-baggers, both black and white-alten in feeling and Radical in education-who sought positions here that were denied them where known-to despoil and hu-miliate us. And when their work was submitted to the people at the polis, thousands of our best citizens were deprived of the right of voting apon it, and over eighty thousand gnorant negroes were given the bal lot to secure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the instrument, and not one in fifty had read it or was even moderately familiar with its provisions and many gave it their support beleiving it would be merely tempo rary, and to escape further agitation and revolution. It is natural therefore that a Constitution thus formed and adopted should be found unsuitedt o our condition, and that we should embrace the earliest opportunity consistent with reason and prudence to secure such changes as time and experience have shown to be necessary. Our organic law should be expressed in language clear, simple and perspicuous, so that nothing may be left to inference or construc tion; our rights, so precisely defined as to be comprehended by all men of ordinary intelligence; and each de-partment of the government should be so restricted, that while left free to discharge its appropriate duties, it cannot by unwarranted encroachments embarrass the proper action of the others.

THE CONSTITUTION UNSUITED TO OUR CON-That the Constitution contains some good provisions no one denies; it would be singular if it ded not, but its about nable characteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix its signature to it, as a fit instrument to be albuitted to the people. Indeed its provisions are so loosely worded and so badly irranged as to constitute but a medley of meon-istencies that defies the successful construction of the courts; in fact, to respect to the difficulties arising from its prac-DITION. le the difficulties arising from its prac concile the difficulties arising from its prac-tical workings, the court has in some in-stances been driven to supply omissions, and in others to introduce a new principle, h.therto unknown in the judicial history of our State, distinguished as "judicial leg-islation," an innovation anti-republican in character and invasive of the rights and duties of a senante department. Its tre-

istation," an innovation anti-republican in character and invasive of the rights and duties of a separate department. Its provi ions are so obscure that within the brief space of its existence many more decisions on constitutional questions have been demanded than in the entire previous history of the State—and of late we have witnessed the extraordinary spectacle of two sets of judges in both thesecond and eighth Judicial Districts, contending for the same position, one of which claiming to bold by an appointment from the Governor for a period of ten years, an office that the Constitution seems to say is to be failed by the people at the polis, and whose term is expressed to be only eight years.

In many counties, there is a practical denial of justice, the counts are inadequate to the public demands, and thus they are driven to resort to special terms, which are expensive and unsatisfactory, and persons accused of criminal offenses are often confined for months without trial. We need a speedier justice and a less expensive judiciary system. We should abolish every useless office, which is now filled by a mere consumer; for only by a rigid and prudent economy in our public as well as private affairs, can we hope to restore the State to prosperity. It is believed that the laws will be more impartially administered by a return to the old practice of a rotation of the Judges.

Amendments to the Criminal Law NEC-

AMENDMENTS TO THE CRIMINAL LAW NEC-ESSARY.

It is also hoped that a greater incentive to honesty and a purification of the ballot box might result from depriving those who are convicted of infamous crimes of the elective franchise.

The n atter of the Penitentiary which already contains more than six hundred able bodied men, also demands careful and practical attention, to remove in some measure that bu den from our shoulders. Most of our private legislation should be Most of our private legislation should be excluded from the General Assembly. However, our limited space does not permit us to catalogue the numerous detects and imperfections of the present constitu tion to enumerate the remedies to be of

There should be some general ordinance adopted in relation to private enactments, thereby reducing the expenses of the Legine ture, and in order to prevent hasty and teronsiderate legislation that no new maths be brought forward within — days of all reducing the reducing the result of the reducing the result of the resu eir adjourning.

CAREFUL SELECTION OF DELEGATES. As to the specific changes that ought to e made, these are to be considered by the tizens of the various counties, who should careful to select as delegates those who occareful to select as delegates those who will properly reflect their wishes. Men of enlarged and practical statesmanship, spotless integrity, representatives of all classes of society, and whose positions among them will entitle them their labors to confidence and support—and in their hands they certainly can more safely confide their rights than in the Convention of 1868. METHODS OF CHANGE,

Of the two methods prescribed for changing the Constitution, that by legislative enactment is expensive, uncertain and dangerous; the several amendments recently submitted to and ratified by the people executive the present difficulties in ecarly submitted to and ratified by the people encountered the greatest difficulties in their passage, and even after the will of the people was declared in their favor by over 10,000 majotity, serious apprahensions were entertained as to whether they were properly adopted; again, legislators when possessed of qualifications for such duties, are encumbered with numerous matters, and cannot bring that attention to each provision presented for consideration, without meeting such criticisms as may imperii their labors.

The Convention method is speedy and conomical, the body is composed only of the same number of members as comprise the House of Representatives, and their

milids are directed alone to constitutional reforms and their work may be completed and ratified, if necessary, in six months. As to expenses that may be incurred, it is believed they will be more than defrayed in a short time by the reforms that will be inaugarated.

The restrictions imposed by the Legislature, fully and amply secure the Homestead, Mechanics Lien, Rights of warried women, and Personal Liberty, and should quiet the fears of the most timid, for they are recognized as of binding efficacy and are chi-fity enjoyed by the friends of Constitutional Reform. Indeed they were incorporated in the bill mainly to remove partizan chamor, and anticipate seruptions agitation. They are not the property of a cere party, but had their origin in the necessities of civilized society and were found among the statutes of various States previous to the war.

QUALIFICATIONS OF DELEGATES.

QUALIFICATIONS OF DELECATES. It is useless, however, to seek to quiet the mere caviller; the keen optics of some per It is useless, however, to seek to quaet the mere cavifiler; the keen opties of some persons dely all law. The mere fact that the bonor of the best men in the State is piedged to their preservation, should satisfy every reasonable voter. This Convention is called in pursuance of law, and each delegate before "he shall be permitted to sit, to be entitled to a seat in said Convention or act as a designate thereto," shalls swear to observe these "restrictions" (see acts 1874-5.) Should a part comply and part refuse to take this outh, only those who obey the law are members of the body, nor are we without precedents; similar oath was required of the members of the "restrictions," and that in a time of high parts exe tenser, in that discussion the distinguished Judge Gaston used the following language: "The State Legislature had indeed no authority to impose an oath upon the members of the Convention of the Convention by the people had ratified the act of the Legislature by choosing deligates under it. If we transcend the limits or refuse obbedience to the conditions therein prescribed we are not the Convention called by the people, but a self constituted body; "these views were concurred in by Macon, Edwards, Morehead, and others. We will dismiss the subject, however, by calling attention to the able work of Judge Jandeson on "constitutional Conventions," where, by argument as differentiation to obey the restrictions imposed by the Legislature in the Act calling the Convention.

Ald From Republicans.

In our last election it was gratifying to

Convention.

AID FROM REPUBLICANS.

In our last election it was gratifying to see Republicans who had latherto submitted to the control of unscrupulous leaders under a mistaken belief that they were promoting the general welfare, seeing their corruptness as demonstrate dby the "Credit Mobilier revelations," "Samborn Contracts," and other francis and defalcations, and their vindictive and releutless policy, whereby they sought to degrade the superior race by this iniquitous "Civil Rights Bill," overcome their party prejudice and give us their cordini support. To them we extend an invitation to remain and contains the work so anspiciously begun. To thosed who oppose us under the delusion of their leaders, who assured them this bill would be vetoed by the President, though it now has his signature; and who have witnessed the earnestness with which the dangerous "Force Bill" was urged upon Congress, we say no longer remain where dangerous "Force Bill" was urred upon Congress, we say no longer remain where there is neither safety nor honor to a North Carodolan. The battle for civil liberty is not yet over. "Civil Rights" is still a part of the secret earpet-bag programme for this State; though oriven from the halls of Congress, it will be renewed in the Southern States. We therefore invite their cooperation. The Convention owes its final success to the support of some of their ablest representatives in the General Assembly and they are doubtless aware that the wise provisions introduced into the Convention of isss, by their ablest native representatives were scouted and defeated by that ame element that has brought rain upon their party and confusion to our State.

NECCESSITY OF ORGANIZATION.

Necessity of enganization.

The friends of Convention should at once perfect their organization and bring out their best men in every county in the State. The leaders of the Republican party know that by their receives violations of the constitution and ciforts to central zeali power in the bands of the Federal Government, they have a true to friend a fortification. ent, they have justly forieited the confi-cace and support of the people; they recefore trust not to their own strength not to our spaths, and will endeavor to course our defeat by divisions and false eaders. We therefore respectfully invite heir attention to the following resolution whopfed and successfully followed in our east commism:

adopted and successfully followed in our last campalan:

Resolved, That we carnestly recommend to the members of the Democratic Conservative party to discourage independent candidates and all other disorganizers, that all support be promptly withdrawn from every aspirant for office who shall oppose the regular nominees of our Conventions. Let your primary county Conventions be duly advertised and see that the people have a full opportunity of attending and expressing their wishes. The contest is impertant not only in its immediate effects but in subsequent results. The Republican party, under the leadership of carnet-baggers still remaining among us. Republican party, under the leadership of arried-baggers still remaining among us, will advocate the election of delegates, who will agree to meet and a journ without holding a Convention, and this in violation of the wishes of the people, expressed through a two-thirds majority of the chosen Representatives, and after a considerable part of the expenses for milage and per diem is incurred. We believe, however, e promise is but a delusion and snare, fo the promise is but a delusion and snare, for should they ascertain they have a majority in the body, it will be an easy matter for them to evade their promise by the refusal of a few to concur; as they do not acknowledge the "restrictions" as binding, they will resort to the nost revolutionary measures to sustain their desperate Lettunes, and in the end will fail to submit their work to the people for ratification or rejection.

NEW ADVERTISEMENTS.

BOOK AGENTS wanted to seil "The People's viser." It is the cheapest book ever published; 85 pages, over 250 illustrations, \$1.50. Thousands buy it at sight who could not be induced to purchase the high-priced books treating of Domestic Medicine. Unlike other books sold through agents this work is thoroughly advertised throughout North Ameri a. This fact, together with the large size, elegant appearance, a.d many new features of the book, causes it to sell more rapidly than any work ever published in this country. Those of my agents who have had experience it selling books, say that in all their previous canvassing they never met with such success or made so large wages, as since commencing the sale of my work. NOON DISPATCHES.

French Assembly - Debates on Napo-

PARIS, July 16.—Savory made a three hour's speech upon the neces-sity of resisting the progress of Na-poleonism. He attacked Rouher as an abetter of a coup de ctat. Buffet said the country was threatened by public danger from the revolutionists, and the Bonapartist's danger from revolutionists was more serious. The government would watch them, the Bonapartists and the Right. The Speaker was cheered. The Left protested. Duffure said the government would display vigilance in regard to Bonapartists. He would not remain a member of the govern-ment that neglected that duty.— Gambetta called attention to the divergence of the two ministers and accused the Government of supporting the Bonapartists by maintaining the Bonapartists in office. Buffet asserted that a perfect agreement exists in the Cabinet especially between Dufaure and himself. They were rendering service to the country by retaining the old functionaries who were loyal, although they had served under the Empire. The Left violently protested; the Right and the Bonapartists loudly cheered. A Resolution that the Assembly confiding in the government's declarations to proceed to the order of the day was passed, 483 to 2. The left abstained from voting. Dufane subsequently affirmed that there were no divergences between the Ministers. The Government had nothing to add or withdraw from its declarations already made. Miscellaneous Items.

A copy-right bill passed the Canadian Parliament on second reading. Gen. Waddy Thomas been remanded to the custody of the Sheriff of Memphis.

The grant to pay the expenses of the Prince of Wales' Indian visit passed House of Commons by a vote

A dispatch from Cardiff says the rivers Poff and Ely are flooding and the adjacent lands for miles are under water. A flood is reported at Bath. A treaty was completed while the Sultan Zanzibar was in London for the suppression of the slave trade on

the east coast of Africa. The Chatworths and Stroches rivers in Baltimore were flooded yesterday. A number of wholesale houses in the central portion of the city had their cellars filled.

The Paris correspondent of the Times surmises the result yesterday on the Assembly as follows: A Louisville dispatch says that George W. Jackson, a deputy-collector and cashier for Collector Buckner, is \$45,-000 short. He is sick, and it is thought he took arsenic.

A Buffalo dispatch says that the Hebrew Council, after electing the Board of Governors, adjourned to meet in Wasnington in July next. Seyeral thousand dollars subscription to the College was received.

A Washington dispatch says a tremendous rain caused the train bound North Thursday night to be thrown from the track by the floating of a cross tie. No one was hurt. and the passengers returned to Wash ington, the track being badly flooded between Bladensburg and Baltimore. Travel was resumed yesterday mor-

A Roman Catholic Cure defies the Civil Authority.

MONTREAL, July 16 .- Father Roussellot Cureof the parish church in this city, has written a long letter to Mr. Doxtre, counsel in the Guibord case in which he sets the latter at defiance as to the execution of the late judgment of the privy council in that matter. The gist of the letter is as follows : This day I do not recognize more than in 1869 the right of the civil authorities to interfere in questions which belong only to the ecclesiastical domain, and notwithstanding my deep respect for our gracious sovereign and my perfect submission to her in civil matters. I am and will always be obliged to refuse sepluture to J. Guibord in concerated ground so long as my Bishop forbids me to

Forged Bank Notes on the Way. NEW YORK, July 16.—The leading bankers here are advised from London to be prepared for offering in this market forged Bank of England and Bank of France notes. The dis-patch reads: "We believe large amounts of forged Bank of England and Bank of France notes will be offered in America. Caution to our

The American Team.

LONDON July 16.—The American team compete indivually at Wimbledon for the Albert cup, valued at five hundred pounds and an Arthur rifle worth one hundred pounds, and the Derby and St. Leger sweepstakes, for which there are numerous entries, and for a series of extra prizes, aggregating 192. They go to Wimbledon to-day.

From the Charleston News When General Lee visited this State (not long before his death) a gentleman who knew him well asked his opinion of Sherman's conduct. duct. This, it must be remembered, was several years after the war, when there were the same means that there are now of forming a true judg-ment. What passed is given as fol-

D. H.: "General Lee, I desire to ask a question, which you will please not reply to if there is any impropriety in it."

General Lee: "Ask it, sir."
D. H.: "Was General Sherman, in is march through the country, justified under the usages of war, in burn-ing our homes over the heads of our women and children while we were in the field?"

General Lee rose from his chair, with his eyes brightened, and said 'No, sir ! no, sir ! it was the act of a savage. He was not justified under the usages of war."

This we have from the lips of the gentleman to whom General Lee said these words. They are worthy of note, and the phrase that General Lee used in speaking of Sherman will be remembered to Sherman's shame when every other bitterness of the war is forgotten : "It was the act of a savage!

THE WHISKY FRAUDS.—Mr. Fish-back prints the following card in the Chicago Tribune: "As to the charges which have appeared in the Chicago journals for the last three or four days, implicating me in whisky frauds at St. Louis, permit me, while passing through your city, to make a simple denial of the truth of all such reports emanating from Washington or elsewhere. Referring especially to a telegram in your paper of this morning, I desire to state that the story as gathered by your correspondent is a most absurd fabrication from beginning to end. All its parts hang upon a certain document sign-Messrs. McKee and Houser of the Globe and myself of the Democrat concerning negotations for conolidation of the two newspapers, which had no relation whatever to whisky frauds or the seizure of distilleries and rectifying houses in St. Louis.

This Engine is endorsed by all the leading machinists in the country. Engines can be seen at our store.

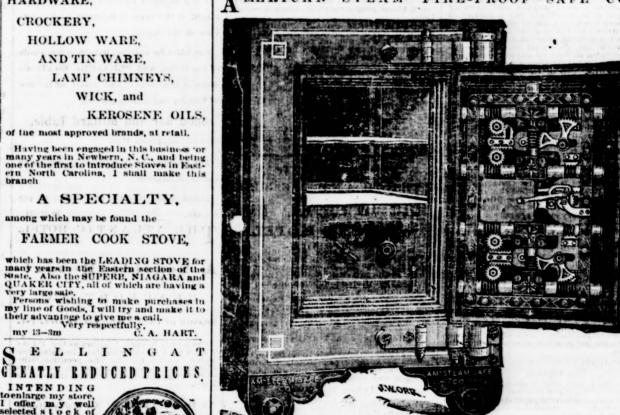

It is Perfectly Free of Danger from Fire!

Sparks being drawn down through upright tubes and dropped in water—making it a desirable machine for agriculturists, printers, carpenters, or for any purposes requiring power of its capacity. Its simplicity allows its being run by any person of ordinary ability. These Fugines and Rollers have been thorughly examined and in pecied by the best mechanics, an incer and experts, all of whom pronounce it to be the best Portable Engine ever presented to the audit.

Their small consumption of fuel, (being less than a quarter of a cord of wood daily for neight horse power) and we call especial attention to the fact that these engines and boilers are considered so safe by Insurance Companies, that they do not increase their rates of insurance upon their introduction into stores, gin houses, and other buildings, making them destroble machines for ginning cotion, running mill stones, elevating, heaving, &c.; and they cannot fail to come into general use.

The materials used in the construction of these machines are in every respect first-class. No cast from shafts or convections. Piston and valve rods, wrist pins, &c., are of best cast sleet.
